Bangla (Native)  
English (Basic)  
Hindi

## About Me

Frontend Developer with hands-on experience in building responsive web applications using React.js, Next.js, and Tailwind CSS. Skilled in translating designs into clean UIs, learning to optimize performance, and integrating APIs to deliver seamless user experiences. Eager to grow as a professional and contribute to real-world projects.

## My Projects

► **Nest Multipurpose E-commerce Website :** [Live site](#)

### Feature :

- Works seamlessly on mobile, tablet, and desktop.
- Smooth product browsing and user-friendly interface.
- Dynamic display of products with category selection and filters.
- Implemented dynamic routing for individual product pages.
- Image & Data Management

**Built With :** React js , Java Script , Tailwind CSS, DaisyUI, imgbb  
Reacticon, Dinamic Routing

► **Multi-purpose E-commerce Marketplace:** [Live site](#)

### Feature :

- Smooth product browsing and user-friendly interface.
- Dynamic display of products with category selection and filters.
- Implemented dynamic routing for individual product pages.
- Image & Data Management

**Built With :** React js , Java Script , Tailwind CSS, DaisyUI, imgbb  
Reacticon, Dinamic Routing

► **Portfolio Website:** [Live site](#) / Github ( [client](#) / [server](#) )

### Feature :

- Responsive Design: Works perfectly on mobile, tablet, and desktop.
- Interactive UI: Smooth and user-friendly interactions.
- Project Showcase: Dynamic display of completed projects.
- Smooth Scroll Navigation: Header links scroll smoothly to sections.
- Image & Data Management

**Built With :** React js , Java Script , Tailwind CSS, DaisyUI, imgbb  
Reacticon, Dinamic Routing
